Subject: Regarding axle lock in MEMU Train No. 03213 within 100 days after POH.

It is brought to your kind attention about an issue encountered with TM-3 in MC 189159, which was received from KPAW in rake-73/JAJ(189158+189159+38076+188524) after its POH on 26.10.2024. This rake was put in service on date 28.10.2024 in train no. 03213 after IC₀ on 27.10.24.

During the run of approx. 80 KM after shed out, Axle lock was reported in Axle-3 at HTZ of MC 189159, which was rectified by ART staff of DNR at MKA.

This is for your kind information and necessary action please.
